INTRODUCTORY.

IN the preparation of the work which **Lassetters** now respectfully place before the public, the firm may be pardoned for saying that they have dealt with it in no niggardly or half-hearted manner; neither time nor trouble have been considered in compiling what may safely be termed the first **Complete Furnishing Catalogue** ever issued in Australasia. It is comprehensive, exact in detail, and so intelligible as to be understood by anyone. The designs are high-class, the majority representing the best work of three of the most noted London designers of the day, who have faithfully carried out **Lassetters'** instructions to "prepare articles that would look well, wear well, and admit of local manufacture in their factory at a price that could be classed as strictly competitive." That they have succeeded in their task, and that the designs answer every expectation of the enquirer, has been proved by the number of orders booked from the "proof sheets" alone of this Catalogue, sent direct to enquirers as received from the printers' hands. No more practical evidence of its useful agency need be adduced.

Lassetters' Warehouse, Offices, Yards and Factories are one of the sights of the capital, and as such are constantly visited by tourists and others paying a visit to Sydney. The firm invite their customers, even if not requiring to purchase, to walk through the show rooms and factories, when it will be seen how extensive are the premises, and of what variety and extent the stock. The convenience of being able to purchase every requisite for the entire furnishing of any class of house, including China, Glass, Cutlery, Ironmongery, Sanitary Appliances, Gas, Electric or Oil Fittings, Drapery, Carpets, Floorcloths, Blinds and Curtains, from one establishment must be a great saving of both time and trouble.

F. LASSETTER & CO., LTD., UNIVERSAL PROVIDERS, SYDNEY & BRISBANE.

Furniture made to specification. Institute, Bank, School and College appointments a speciality. Architects' plans and specifications estimated. Patterns carpet and floor coverings free per post; also, patterns for covering for suites of furniture post free. Enquiries specially courted and promptly answered. There is nothing that **Lassetters** cannot supply or make. Customers can view their goods whilst in course of manufacture at the factory. Clients' ideas carefully considered with regard to any special work contemplated, and a price given for the carrying out of same.

Lassetters, as the pioneer house of Australian trade, with a connection that extends from end to end of the continent and the adjoining groups, are too deeply indebted to that connection to ever allow it to be said that they are not "alive to the wants and abreast with the times."

Estimates guiding customers to economical expenditure in the furnishing of cottage, house, mansion, public institute, convent, college, or hotel, can be had free per post upon application. **Lassetters** include four "specimen" estimates—to be found at end of Catalogue—showing the idea of their throughout furnishing estimates, of which they issue, in addition to those herein shown, the following:—£75, £110, £150, £170, £200, £250, £300. The four shown are for cottage homes, generally required at somewhat short notice, a selection of the goods for which is invariably left to

Lassetters.

F. LASSETTER & CO., LTD., UNIVERSAL PROVIDERS, SYDNEY & BRISBANE.

BEDROOM FURNITURE.

OUR CLARENCE STREET FACTORY is replete with the most modern cabinet-making plant as yet produced for the manufacture of Furniture. Thoroughly seasoned woods alone are used in advantage of great amount in exceptionally dry and hot districts.

The designs herein shown represent exactly and truly, by the articles that will be despatched to a client's order, the letterpress description is answered for to the very letter. The best and best deals in Bedroom Furniture will be found herein.

Do not cut out the designs when ordering. SIMPLY STATE THE NUMBER OF THE ARTICLE, that being quite sufficient

We have spared neither time nor expense in the preparation of absolutely new designs of up-to-date artistic furniture and have catalogued the same at prices to command a ready sale.

LASSETTERS wish to point out that they have departed from the old restrictive rule of quoting only for "full suites"; reference to this Catalogue will show that each article is priced separately as well as by the suite, a convenience to many just starting housekeeping and to others whose space will not always permit of the full complement, yet who nevertheless desire fashionable and well-designed furniture as far as space warrants.

Country Orders have the immediate personal attention of a member of the firm, who sees to the most exacting care being bestowed upon each order—care in judgment, care in faithful selection, care in packing, care in despatch—whether the order be for one pound or one thousand.

Careful and experienced men, well accustomed to the road and mode of Australian transit are those who form our packing staff.

F. LASSETTER & CO., LTD., Sydney & Brisbane.

INVALIDS' TABLES, BED RESTS, &c.

(129) INVALID'S TABLE, with casters, &c.
 This table, being raised & lowered by means of a small hand wheel, being effected by the small hand wheel, which, when being turned to the right, holds it firmly in position. When not in use at the bedside, it can be swung around and reversed, so as to bring the firm standard to a more central position under the table, thus forming a table for general purposes.

DINING & MORNING ROOM FURNITURE

FORM AN IMPORTANT FEATURE of LASSETTERS' interesting trade. This Catalogue is replete in designs of handsome, serviceable, and reliably made goods, of the practically useful and artistically elegant description to be constructed in LASSETTERS' Cabinet Factory and Upholstery Works.

In the matter of Coverings for Suites or Couches, or of Carpets or Floorcloths for Halls, LASSETTERS post patterns, so that customers are at no disadvantage in the matter of choice in selection.

POSTAL ORDERS have the immediate personal attention of a member of the firm.

ONE PRICE, and that a closely competitive one, rules throughout the house, each order specially made and despatched direct as received from the factories, no "odd stock" or sample goods sent out every care paid to faithful work, and especial attention bestowed upon packing and safe and inexpensive mode of transit.

Whenever selection of style or the determining of value is left to LASSETTERS, customers can rely upon the firm exercising their judgment wisely and entirely to the advantage of the customer.

All orders receive the same attention whether small or large.

WE USE ONLY WELL SEASONED WOOD IN OUR FACTORY.

AUSTRIAN FURNITURE.

THIS very desirable, useful, and economical priced furniture is well adapted for Australian use. The various articles can be taken to pieces and packed for transport, each part has its fitting number and any careful person can screw the parts together. So much depends on superior wood and exactness of finish in this class of furniture that customers are warned against the low priced article that from time to time finds its way upon the market. LASSETTERS' home buyers personally inspect their orders before the goods leave the Viennese factories, no order being placed with any but firms of long standing reputation as makers of best seasoned woods and with a well known and excellent of finish.

DRAWING ROOM FURNITURE.

TO DRAWING ROOM FURNITURE and the varied accessories incidental to the best living appearance of the Drawing Room and the **Bedroom**, **Lasseters** have given exhaustive attention and the illustrations to be found herein will afford ample evidence.

The designs shown represent the best work of the recognised masters in the furnishing world of to-day, and are catalogued at prices kept purposely competitive the price upon the cost of materials, local factories being merely marginal, whilst the character of the work is distinctly first-class.

Lasseters shows a pleasing variety of luxuriously upholstered **Settees**, **Lozenges**, **Divan** and other **Easy Chairs**, together with a range of **Occasional Chairs**, for out-reaching in extensiveness of scope, everything yet catalogued. In the matter of **Occasional Tables**, a selection more than holding its own with the best of the London, Parisian, or New York houses will also herein be found catalogued. And what is more to the point, perhaps, is that **Lasseters** have been guided by a study of the economic right throughout their factory production, and are quite satisfied that they have placed exquisitely fashioned goods before the public at the lowest price possible.

Cabinets and **Overmantels** are now extensively manufactured at **Lasseters'** Cabinet Factory, many beautiful designs being shown at the Catalogues, and it is with no ordinary pleasure we chronicle the fact that the price catalogue for our own solidly made goods is in no sense higher than customers have been charged in the past—a past unfortunately only too present in many instances—for the inferior made imported article. Customers are now able to get **Overmantels** made to their own dimensions, whereas before they were compelled to take whatever happened to be in stock, irrespective of the nature of requirement.

By the aid of **Lasseters'** Furnishing Catalogues customers can study out their requirements and put their money to more practical use than at present even in person upon the show-room floors of the Warehouse, all necessary patterns of coverings, draperies, floorcloths and the like sent free per post to country residents.

Customers can rely upon care in selection, safe packing, and an economical mode of dispatch being attended to, as a member of the firm gives to these matters his personal attention.

OVERMANTELS, PIER GLASSES, BRACKETS, &c.

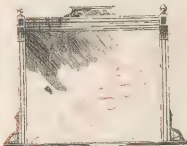

OVERMANTELS in Bamboo are catalogued separately, forming part of our "Catalogue of Bamboo Work."

We may at once inform our Customers that there is no comparison between the Overmantels made in **Lassetters'** factory, Clarence Street Sydney (herein illustrated) and the shoddy article of the Sydney auction room and "shoddy" importer.

A pleasing feature is the price. Notwithstanding the fact that we give soundly constructed frames, elegant finish, and true reflecting glass, our prices are actually as low as are asked for the unsatisfactory imported goods.

OVERMANTELS are also made specially to order, in harmony with the appointments of the room. The designs shown can in most cases be adapted to suit the style of other appointments, both as regards measurement and arrangement.

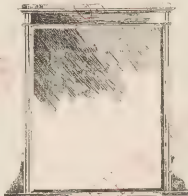

A variety of **FITTED MANTELS** with **OVERMANTELS** are always on show.

PATENT AXMINSTER CARPETS in breadths 27in. wide high-class designs an important specialty being known as the "Imperial" It is made by an entirely new process, is of close texture, and presents an even and beatific, lustrous effect a carpet very suitable for, amongst others, the drawing room **5 6** per yard.

ROYAL AXMINSTER CARPETS in breadths 27in. wide, extra deep piles, admirably adapted for dining room and library wear, being of a coarser and thicker manufacture than the "Patent" Axminster **6 6** and **7 6** per yard.

In the range of Royal Axminsters are to be found patterns selected from the best specimens of the Antique and Oriental, with all their charm of rich and mellow color allied to its characteristics and the regularity of feature so signally distinctive of the Eastern design.

Lasseters make this the opportune moment to quote the recently introduced and less expensive **SEAMLESS AXMINSTER CARPET**, so much of appearance and exquisite in design Exceptionally good value.

Can be had in the following sizes—

Re **MATTING**. China and Japanese Mattings have of late years improved considerably in quality, and now take a prominent position amongst the floor-coverings in use. They form also most useful and becoming "surrounds". Through direct importation **Lassettors** are able to offer their customers a very considerable saving in price. A standard stock width in White and Fancy Colored is that of 36 inches at **10d, 1 - 1/3 and 16** per yard.

Matting is made up into squares or as runners bound at ends, and sewn together at edges as instructed. It is also much used for Dadoes, Bath-rooms, Vestibules &c. being fixed in position with a narrow and inexpensive Wooden or Bamboo Moulding to be procured at **Lassettors** at a minimum cost.

IMPORTANT. **Lassettors** are prepared to quote **TURKEY CARPETS** of genuine first quality, in which only the best Wool and Cochineal, or occasionally Madgeedye, are used to be made and imported direct from a manufacturer at Ouchak, world-famed for his goods, at a really reasonable figure. The quotations are moderate considering the article, but as those who incline to a genuine Turkey Carpet must very well know, it is a figure not within the reach of every-day trade; however, **Lassettors'** profit will not prove a hindrance to introduction nor render the price unduly restrictive. In common with all other goods of the House the price is competitive and the profit therefore merely marginal. Full particulars upon application.

The "Lightning" Ice Cream Freezer.

THE LATEST AND BEST.

With hinge top and famous wheel dasher. Quadruple motion. Freezes quicker, easier, and makes more ice cream from given quantity of cream than any other freezer

The revolving wheel dasher forces the cream from centre to circumference of can, where it is quickly frozen and then removed by adjustable scraper, to be followed by more cream from the centre, and so on, until the whole contents are ready for the table.

In addition to this, the dasher as it turns forms a vacuum in the freezing cream from the top to the bottom of the can, which fills with air and is beaten in the cream, making it very light and palatable, and greatly increasing the quantity put in the can.

The gearing is entirely enclosed, preventing any possibility of injuring the operator.
